Brooks, thank for sending on the reports, they are very helpful. I noticed in report #3 that you are projecting up to 22 buildings will have siding removed. Do you have a list of the building numbers that this will include that you could send me? I would like to include them in our SWPPP. I understand that this could change, and we can note that, but I think it will be useful to Ecology when reviewing the SWPPP. Thanks.

Hopefully cooler days lie ahead.

Tom
